

RANGER Guardian

Helping protect pupils, staff and reputation

Guard against paedophiles, cyber bullies and inappropriate behaviour.

Cyber bullying and cries for help occur in several unexpected applications, such as MSN Messenger, e-mail or Microsoft Word. These are often unmonitored or subject only to random checks. Traditional blocking and filtering systems are not enough to prevent exposure to these very real dangers.

Ranger Guardian is designed to protect your school, teachers and pupils from malicious and threatening activity – from inside and outside the school gates. It monitors all of your computers and automatically alerts you to harmful situations – so you can take action straightaway.

Protect against:

- predator grooming
- pornography
- weapons
- bullying
- abusive language
- drugs
- racism
- religious hatred
- hacking

Identify risk

Ranger Guardian monitors text in every application – regardless of source – and lists every Web site visited. It identifies incidents of bullying and uncovers 'confessional' communications buried in Word, MSN and e-mail communications.

Protect your pupils

Ranger Guardian minimises the risk of serious abuse, providing evidence to meet 'Every Child Matters' requirements. If inappropriate activity is detected, Ranger Guardian captures a screenshot and automatically sends it to the administrator for immediate action.

Transform behaviour

Ranger Guardian acts as a powerful deterrent. It increases on-task activity and teaches students to behave in a more responsible way. Teachers' morale is boosted, as evidence of off-task activity is reviewed outside the classroom and confrontations in class are reduced.

Limit liability

Ranger Guardian can reduce the risk of litigation, by reducing exposure to adverse incidents, deterring PC violations and helping to identify perpetrators.

Benefits

- Enhance pupils' safety
- Reduce Head and Governor liabilities
- Meet 'Every Child Matters' requirements
- Early warning of pastoral care issues
- Reassure parents
- Improve teachers' morale
- Deter inappropriate behaviour
- Reduce off-task activity
- Foster an ethos of 'freedom with responsibility'

Features

- Designed specifically for education
- Monitors text in every application, including chat rooms, e-mail, MSN Messenger and Microsoft Word
- Automatic alerts of inappropriate activity
- Pre-defined policies, word and phrase lists
- Fully customisable libraries – add extra words and phrases
- Screenshot evidence of all violations
- Flexible management reporting
- Ability to adapt severity coding according to pastoral concerns
- Reports on laptop misuse – even when disconnected from the network
- View violations from any PC at any time
- Tamper-proof hardware

Instant reports

Ranger Guardian captures a screenshot of any inappropriate activity and records the time, date, user name, PC name and offending word or phrase. Administrators can customise libraries with additional words and phrases or adapt the severity coding according to pastoral concerns.

To allow for quick and easy management, Ranger Guardian ranks violations by severity, top violators and top phrases. Potentially life-threatening violations can trigger SMS or voicemail messages or pop-up alerts to senior staff – calling for instant attention.

Control and monitor Web access

A Web log allows administrators to instantly check new Internet sites accessed, so that unsuitable sites can be blocked, as necessary. All visited Web sites are logged, providing evidence of off-task activities.

Monitor laptop activity

Any misuse that takes place on a PC that is disconnected from the network or taken out of school is automatically recorded and reported as soon as the PC is re-connected to the network.

Pastoral care

By identifying those children suffering serious psychological and emotional problems and providing crucial evidence of their circumstances, timely action can be taken by staff, parents, Social Services or health professionals.

Use Ranger Guardian to expose and act on the true nature of situations – including potentially life-threatening cases of abuse or predator grooming – without delay.

To see what you miss on your network every day, order a free, no-obligation trial today!

The Right choice

When it comes to specific requirements for your school or college, you're the expert – we just provide you with the tools to help you to achieve your network management objectives, in the most effective way possible.

Ranger offers a comprehensive portfolio of products, to simplify and enhance your basic network – and you're free to select the best combination to suit your specific needs.

So, there isn't one 'right' way of doing things – just the right choice of partner...
